COMPREHENSIVE DENTAL COMMUNICATIONS

Why do so many dentists use
Fluorescent Temporary Crowns?

“In my experience I have found temporary material for all my patients. It's easy to use, with a guaranteed quick and reliable set, with a long life span.”

Quicktemp 2
as the name says, the quick way to make better temporary crowns and make them easier & quicker.

- Fluorescent temporary crown & bridge material
- Reflects light like natural teeth
- Stable low and lower curing temperature
- Fast, long setting and easy to use
- Compressive strength now more than 250 MPa
- Facial hardness increased by more than 17%
