THE BEAUTY WITHIN

ZMC ZIRCONIA CORE

- High quality Zirconia aesthetically pleasing superior strength & fit
- Fully supported ceramics using digital cut back technology
- Wide range of restorations available: Inlays, crowns, Maryland type inlays, veneers, bridge units to full arch & implant custom abutments
- Zirconia shaded single & bridge frameworks from £26 per unit

ZIRCONIA CORE IMPLANT CUSTOM ABUTMENT

What design software allows us to design a fully integrated crown or custom individual Zirconia custom abutment. Our interface then links to support most implant systems currently available. The result is a customised and finished custom abutment. Supplied equipped with a Zirconia Core anatomically supported framework. A fully contoured and finished anatomical custom abutment, with coloured anatomically supported framework.

> from £199 per abutment including screw

ZMC CORE RESIN

Our resin frameworks and full ceramic crowns are 100% self-heal when burned out so can be used in traditional methods of cut back technique for single crown, bridge or gold shell crowns. Alternatively they can be used with pressing techniques for veneers. Our Resin core can be supplied as an individual product for a veneer or as a 1/2 arch custom resin crown on top of your Zirconia Core framework to be used in pressing.

> from £5 per unit
Try a resin framework FREE (price 4 units) send a model or call us

To find out the full benefits of working with our Zirconia Core products contact:

VITA VMK Master®
Innovation in the third generation!

The new VITA metal ceramic with the familiar layering you're accustomed to.

40 years 3 letters. 1 original. For generations VMK has been the standard for metal ceramic. With the support of the original VITA VMK is the benchmark for easy, safe and cost-efficient handling. With VITA VMK Master this is more true than ever. Thanks to its long temperature and chemical and physical characteristics, VITA VMK Master is best suited for the processing of non-pressed metal alloy frameworks. Furthermore, the standard layering continues to provide the most simple handling. VITA VMK Master stands above all for one thing: quality without compromise. www.vita-lab.com

ATLANTIS™

We found a treasure!

Atlantis® obturators – the interfaces you need in the materials you want

- Always offers the following advantages:
 - Excellent seal and ease of production
 - Excellent productivity and efficiency
 - Easy handling – from an added bottom™ time for your benefits – from an added bottom™ time for your benefits
 - Available for all resin implant systems and for metal-to-metal

Are you looking for the best solution for complete dental implant production? Atlantis® is the answer. By utilizing the unique Atlantis® obturator design, you can produce shells in a matter of minutes. Atlantis® is the only obturator that can be used to create obturators for all implant systems. Contact your distributor for more information.

BORA LED & PRESTIGE LED INNOVATION WITH STYLE

Imagine incredibly light instruments, refined, efficient and elegant at the same time.

Inspired by the latest technological breakthroughs in the most demanding environments, the Bora and Prestige BORA LED incorporate a custom laser handle. These handles are incredibly light and therefore easier to handle. Moreover, the custom laser offers improved resistance to wear, friction, erosion and impacts. The two Bien Air monoblock optical glass rods provide ideal distribution of the LED energy. There is virtually no shadow area, offering a natural white light similar to daylight. The LED has a service life 70 times longer than that of a traditional light bulb.

Available with metal or a custom laser handle, the powerful Bora and the miniature Prestige handles set new standards in ergonomics, performance and durability.

50 years

RECRUITMENT

Be different!

All jobs are not the same. Our private practice group has set up their own lab and seeks two talented ceramists

All work will be CAD/CAM and metal free, supplying the needs of the group's specialist and general practices. So quality and not volume is the key.

With a brand new purpose built premises in Telford, light, air conditioned with the latest equipment, but most importantly a happy working environment, this is different from the typical job.

Pay is negotiable but we think exceptional people deserve exceptional salaries.

So if you are positive, talented and want a job that is different for all the right reasons then call Jason on:

07989 407 970
